Reaching People, Touching Lives

People helping people to create a safe and socially responsible community.

WHO WE ARE AND WHAT OUR MISSION IS...

MAAP, Inc. is licensed by the state of California with services that reach the Sacramento area. Our mission is to provide counseling and case management assistance to individuals and families experiencing issues surrounding substance abuse and/or mental health challenges through prevention, education, and treatment services leading to a safer and more socially responsible community.

MAAP is fortunate to have a multicultural staff representing many ethnicities to address the needs of the Sacramento and North Highlands communities. Neighborhoods in North and South Sacramento regions are some of the most impoverished areas in the State. It is MAAP's objective to efficiently respond to the needs of youth in our community.
